

What A Night!

Saur UK Proud Sponsors of the West Dunbartonshire Working4Business Awards 2018

Over 200 guests celebrated ‘the diversity and innovation that can be found throughout the business community of West Dunbartonshire’ at the Working4Business awards in April 2018. Saur UK was delighted to be part of the prestigious event and proud of the quality of the submissions in the sponsored category of Success through Sustainability.

Saur UK is a firm fixture in the Glasgow business community, having operated the waste water treatment works in Dalmuir for many years, bringing jobs and services to the area. With environmental improvements top of the Saur agenda, it was a perfect fit to sponsor the Success through Sustainability category and support other local businesses looking to improve their environmental record.

Attending the awards dinner, **Business Development Director Axel Ruggiero** said “the quality of the entrants for the award was encouragingly high. It was a very tough choice. East Cambusmoon Holiday Cottages are very worthy winners, showing innovation and creativity and I am delighted for them. It was an excellent night and a brilliant showcase for local businesses. I am very proud that Saur is part of this thriving business community.”

West Dunbartonshire Council leader Jonathan McColl said: “These awards provide a platform for celebrating the success and achievements of our thriving business community in West Dunbartonshire. The winners showcase the best of West Dunbartonshire’s business sector, and I want to congratulate each of them, and recognise the efforts and achievements of all of the finalist, and indeed, all the firms which entered the awards.
